New Collectors is pleased to present *Wild City*, a solo presentation of Lucia Buricelli's photographs. Buricelli's work is bizarre and whimsical, with pops of color intensified by the use of a flash. This is her first solo show in the United States, and will feature a selection of limited edition prints from her ongoing series about animals in urban settings.

*Wild City* showcases 13 photographs that explore the variety of fauna that populate cities, with specific attention to how animals interact with urban environments, and how the actions of humans affect their lives.

Lucia Buricelli started the series in 2018 when she began photographing pigeons in Venice, her hometown. Due to their constant contact with people, the birds are very friendly: they sit on the shoulders of tourists and sometimes even steal their lunch.

After the pigeons in Venice, she started documenting other animals and their interactions all around Italy and in the USA. In New York City she spotted thirsty raccoons drinking coke; in Key West, brave roosters crossing the street and crowing at all hours of the day.

**About the artist:**
